MEMORANDUM FOR

STAT

SUBJECT: Task Force on Personnel Management

Attached is the Report of the Task Force on Personnel Management together with the replies of the Deputies. The time has come for an aggressive follow-up action on this, and I wish you would be the action officer in this regard. I suggest as a first step that you break out each recommendation and its discussion from the Task Force Report, perhaps putting each on a separate page and then summarizing the comments of each of the Deputy Directors on the recommendation. This will give us the vehicle for deciding on the next step--as to whether we have hearings or further study, or take command action. After you have this prepared, let's discuss it.

Lyman B. Kirkpatrick
